West, Inc.

Dear Mr. Fernow:

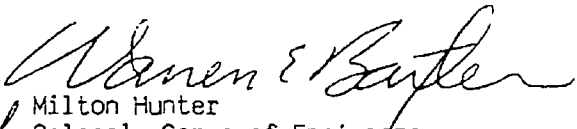

You are hereby authorized to construct a pier and dolphin in the Duwamish River at Seattle, Washington. The work must be performed as depicted on the enclosed drawing (enclosure 1), and you must meet the enclosed conditions (enclosure 2).

We have reviewed your application for a Department of the Army permit for this work. Our review was made pursuant to Section 10 of the Rivers and Harbors Act of March 3, 1899. We determined that your proposal is minor in nature, will not significantly impact environmental values, and should encounter no opposition. We are thus issuing you a "Letter of Permission" to authorize the work, rather than using our lengthier public notice procedures.

Please note the conditions and limitations contained in enclosure 2. Read them carefully. You should also be aware that any changes in the location or plans for this work will require submittal of a revised drawing to this office, and our written approval, prior to accomplishment.

While you need no further authorization from us, you must still comply with other local and State requirements. At a minimum, you must obtain a Shorelines Substantial Development Permit determination from the City of Seattle, and a Hydraulic Project Approval from the Washington State Department of Fisheries and Department of Wildlife, and you must contact the Washington State Department of Natural Resources for a determination of leasing requirements for submerged lands before you begin your work.

BY AUTHORITY OF THE SECRETARY OF THE ARMY:

Milton Hunter
Colonel, Corps of Engineers
District Engineer

Certification of Compliance with Department of the Army Permit

Permit Number: OYB-1-012987

Name of Permittee: Ash Grove Cement West, Inc.

Date of Issuance: 3 December 1990

Upon completion of the activity authorized by this permit, sign this certification and return it to the following address:

Department of the Army
Seattle District, Corps of Engineers
Regulatory Branch
Post Office Box C-3755
Seattle, WA 98124-2255

Please note that your permitted activity is subject to a compliance inspection by an Army Corps of Engineers representative. If you fail to comply with this permit you are subject to permit suspension, modification, or revocation.

I hereby certify that the work authorized by the above referenced permit has been completed in accordance with the terms and conditions of the said permit.
